Introduction

Parasmani Exports is a leading supplier of high-quality quartz products for various industries. Our founder, Mr. Paras Amipara, established the company with the vision of providing superior quality quartz products to customers worldwide.

We are committed to delivering excellence in every aspect of our business, from our rigorous testing and use of only the highest-grade materials, to our exceptional customer service and support. Our competitive pricing ensures that our customers receive the best value for their investment.

At Parasmani Exports, we prioritize sustainability and eco-friendly practices to minimize our environmental impact and support a better future for our planet. We export our products worldwide, making it easy for customers to access high-quality quartz and silica no matter where they are located.

We take pride in being one of the top exporters of India, and we continue to strive for excellence in all that we do. With a focus on quality, purity, and customer satisfaction, Parasmani Exports is the partner you can trust for all your quartz product needs.

Dolomite Powder

Looking for high-quality Dolomite Powder products for your industry needs? Look no further than Parasmani Exports! We specialize in providing superior-grade Dolomite Powder products, including quartz lumps, quartz powder, and silica sand, all carefully sourced and tested for quality and purity.

Our commitment to excellence is reflected in every aspect of our business, from our eco-friendly and sustainable practices to our exceptional customer service and support. We take pride in being India's No. 1 Dolomite Powder exporter and continue to uphold our reputation for delivering the best value for your investment.

Applications:

- ▶ White Detergent
- ▶ Plastics
- ▶ Paints
- ▶ Other Thermoplastics
- ▶ Polyester Glass Fibre Reinforcements
- ▶ Ceramics
- ▶ Powder Coating

Quartz Lumps

At Parasmani Exports, we specialize in providing high-quality Quartz Lumps for various industrial applications. Our Quartz Lumps are available in a range of sizes and grades to meet the specific needs of our customers.

Our Quartz Lumps are sourced from the finest mines and undergo rigorous quality testing to ensure their purity and quality. We only use the highest-grade materials to produce our Quartz Lumps, ensuring that our customers receive the best possible product.

Our Quartz Lumps are widely used in industries such as ceramics, glass manufacturing, and chemical processing. They are ideal for applications that require high-temperature resistance, low thermal expansion, and excellent electrical insulation properties.

Applications:

- ▶ Cement industry
- ▶ Glass industry
- ▶ Ceramic industry

Quartz Powder

Quartz Powder is a highly versatile material that finds extensive use in a variety of industries. Parasmani Exports offers premium quality quartz powder that is made from high-grade quartz rock and is free from any impurities. Our quartz powder is widely used in various applications such as glass making, ceramics, paints, construction, and foundry industries.

Our team of experts ensures that the quartz powder we supply is of the highest quality, with consistent particle size and purity. We also offer customized grades of quartz powder to meet the specific needs of our customers.

Our state-of-the-art manufacturing facility is equipped with the latest technology and machinery, enabling us to produce large volumes of high-quality quartz powder. We are committed to maintaining the highest standards of quality and safety in all our operations.

Applications:

- ▶ Ceramic industry
- ▶ Paint Industry
- ▶ Artificial Quartz Stone
- ▶ Glaze/Frit industry
- ▶ Oil Drilling

Silica Sand

Silica Sand is one of the most widely used materials in the world, especially in construction and manufacturing. At Parasmani Exports, we provide high-quality silica sand that meets strict industry standards.

Our silica sand is sourced from the best mines and undergoes thorough processing to remove impurities and ensure maximum purity. It is available in various grades to suit different applications, from glassmaking and foundry work to construction and landscaping.

We take pride in our commitment to sustainability and eco-friendly practices, which is why we prioritize using recycled materials and minimizing our environmental impact in every step of the production process.

Applications:

- ▶ Painting
- ▶ Stamped concrete
- ▶ Water filtration
- ▶ Steel Industries
- ▶ Artificial Marbal Stones
- ▶ Construction chemicals
- ▶ Artificial engineered slabs
- ▶ Emery paper
- ▶ Plastering
- ▶ Agri industries
